EDUCATION

Pace University, Seidenberg School of Computer Science and Information Systems	Manhattan, NY
Master of Science (MS) in Information Systems Concentration: Business Intelligence GPA: 3.7/4	Sept 2023 - May 2025
Gujarat Technological University	Gujarat, IND
Bachelor of Technology (B.Tech.) in Information and Communications Technology GPA: 3.5/4	Jun 2019 - May 2023

RELEVANT COURSEWORK

Database Management | Business Intelligence | Business Analysis | Big Data Analytics | Information Systems Design | Information Architecture | Machine Learning | Artificial Intelligence | Cloud Computing | CRM | Web GIS | Data Communications | Signals & Systems | Computer Networks | Software Engineering | Operating Systems | Project Management

TECHNICAL SKILLS

Programming Languages: Python, SQL, R(tidyverse), CSS, HTML, JavaScript

Data Visualization Tools: SQL, Tableau, Power BI, Google Analytics, Google Data Studio, ggplot2, ArcGIS, MS Excel, Miro, Canva, SAS

Data Analysis: Predictive, Statistical, Time series, Cluster, Root Cause, Competitive, ROI and Network Analysis Data Mining, Data Modeling

Data Science Libraries Tensor Flow, scikit-learn, Keras, PyTorch, Pandas, NumPy, Matplotlib, seaborn

CERTIFICATES

Google Data Analytics (Coursera, 2023) | Python for Data Science (Coursera, 2023) | R for Data Science (LinkedIn) | Business Analysis Essentials (Microsoft, 2024) | Agile Methodologies (UMD, 2023) | UX Design (Google, 2023) | Google Ads (Google, 2024)

ACADEMIC / PERSONAL PROJECTS

Netflix Data Analysis	Jul 2024 - Aug 2024
Executed SQL queries to extract and transform a Netflix dataset of 1M+ records using R and Tableau with 98% accuracy, conducted exploratory data analysis on viewing behavior and demographics to uncover trends in content types, genres, regional preferences, and engagement, and developed 10+ Tableau visualizations to enhance data-driven content strategy effectiveness.	
Market Trends Analysis	Feb 2024 - May 2024
Leveraged SQL to clean and analyze over 100,000 records from shopping datasets, ensuring data accuracy and integrity. By performing in-depth analysis, Identified the top 10 spenders, who collectively contributed to 30% of the total revenue, while also pinpointing key trends in product popularity.	
US Automated Data Scraper	Jan 2024 - Feb 2024
Engineered a high-performance tool in Python to scrape and automate real-time US stock data, optimizing speed and efficiency while enhancing performance and reliability for continuous market monitoring and up-to-date financial data analysis.	

PROFESSIONAL EXPERIENCE

Pace University	New York, NY
Graduate Student Intern	Jan 2024- Jun 2024
- Researched student performance data using Excel and SQL to implement targeted academic support initiatives, such as personalized tutoring, resource allocation, and progress monitoring, improving overall student outcomes by 25%. - Managed over 100 inquiries and greeted 50+ visitors monthly as the primary contact, maintaining 200+ Student records and supporting document processing for a team of 10. - Partnered with stakeholders and Professors to validate and process data for reporting, ensuring alignment with organizational goals.	
USA Trading LLC	New York, NY
Market Research Analyst	Dec 2023- Jun 2024
- Facilitated in managing FBA operations by conducting product research on Survey Monkey, optimizing listings for improved visibility, and coordinating inventory to ensure product availability and minimize costs for an E-commerce Website. - Designed sales performance and advertising metrics using AWS, delivering actionable insights to support data-driven decision-making and Leading to a 15% increase in sales next Following Quarter.	
Brainy Beams Pvt. Ltd.	Gujarat, IND
Data Analyst	Jan 2023 - Dec 2023
- Partnered with software development and QA teams to ensure data accuracy in testing AI-based learning solutions, leading to a 15% improvement in product quality. - Built automated reporting dashboards in Power BI, reducing manual reporting time by 50% providing stakeholders with actionable insights in real-time. Also, Automated data cleansing and transformation tasks in SAS and Sales force, improving efficiency by 20%. - Developed comprehensive data reports that informed strategic decisions, contributing to a 15% increase in successful project outcomes. - Monitored and analyzed key performance indicators (KPIs) for client projects, driving 18% higher operational efficiency in team.
